

NACELLES

Werner Aero Services is full service provider of V2500A-5 and CFM56 engine nacelles including loans, leases, exchanges, outright sales, repairs and modifications. We understand the unique challenges nacelle components present and the significant toll they can put on your balance sheet. To help our customers, we created worldwide nacelle pools as a option for operators that saves money and time while guaranteeing performance. Werner Aero Services' nacelle pools are strategically located throughout the globe providing fast turn-around-time and a cost effective solution. We can tailor a program to fit the unique needs of any of our customers, ensuring the best possible use of the pool. Additionally, we offer our expertise in the repair management of any nacelle components.

Benefits of a nacelle pooling agreement:

- Extensive pool of nacelle equipment strategically located to get to you faster
- Available when you need it
- Most economical way to protect your airline's spares requirements
- Limit your inventory investment
- Minimization of out of service costs
- One point of contact for all your nacelle needs

Nacelle pool includes:

- Trust reverser
- Inlet cowl
- Fan cowl
- Common nozzle assembly
- Tail plug assembly
